

Transfer Pump CBS

Technical Index

★ Pump ID Meaning

CBS 18 (impeller of in mi	diameter (impeller tip width
Applications	Stationary pump for liquid transfer
	Road tankers
Liquids pumped	LO ₂ , LN ₂ , LAr, LCO ₂ , LNG, LN ₂ O
Drive type	Gearbox
Design pressure	50 bar / 725 PSI

★ Test Procedure

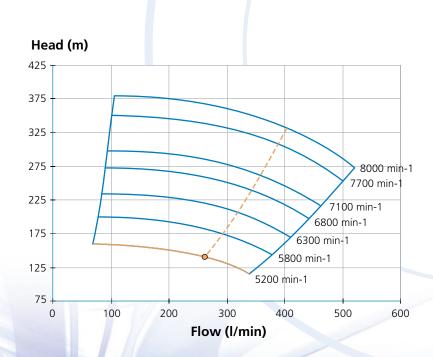

Each pump manufactured by CRYO-STAR is mechanically and cryogenically tested prior to shipment in our state-of-the-art testing facility to ensure that performance meets customer specification. The precision of measuring devices provides essential results: differential head, flow rate, seal gas consumption, pump efficiency, NPSH, noise and vibration levels—all documented and submitted to the customer.

★ Quality

Designed in compliance with guidelines like IGC 11/82 norm

★ Performance

Features

- Front opening of housing: easy and reliable replacement of mechanical seal without the need for readjustment of the run-out
- CRYOSTAR composite mechanical seal (4 times longer life time than carbon seals)
 - ★ for CO2 application : special CRYOSTAR high pressure mechanical seal
 - ★ for long life application : CRYOSTAR gas seal
- High hydraulic efficiency closed impeller 3
- Helical inducer allowing low required NPSH 4
- 5 Splash lubricated gearbox with oxygen compatible oil

a minimum 10 Thick insulation plate providing low thermal conductivity

Pump support with 3 bearings:

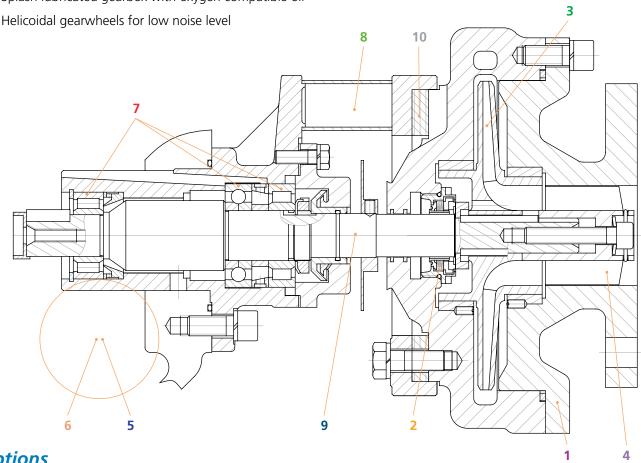

Permacold barrier consisting of:

volute and the motor

2 for radial thrust and 1 for radial and axial thrust

4 hollow arms open intermediate piece between the

Hollow shaft reducing thermal conductivity to

Options

- ★ Differential pressure switch (protection again dry running)
- ★ Cool down temperature probe
- ★ Leak detection temperature probe

- ★ Purged seal
- Purged gearbox
- ★ Complete skid mounted assembly
